PROVIDE A SAFE-AT-WORK FACILITY

- Sanitize and disinfect all common areas at least daily, including at shift change
- Maintain an inventory of disinfectants, hand sanitizers, and other PPE to last 30 days
- Install hand sanitizers throughout the facility
- Record all visitors
- Lay out common areas for social distancing
- Find ways to minimize common surfaces employees need to touch, for example:
  - Auto open doors or kick plates
  - Prop interior doors to each office open to decrease touching of knobs/handles

Manufacturer’s Edge has been working with the manufacturing community, the state of Colorado, and our Manufacturing Extension Partnership National Network to establish best practices for maintaining a safe and clean environment as people go back to work. We have also developed a number of resources and programs designed to customize your company’s response to the covid-19 crisis. We want to do our part to provide a safe work space and will provide some support free of charge, as well as assist you by leveraging alternative sources of funding for complex issues. Please contact your regional director to find out how we can help.
